This report provides normative information for the performance of your examinees approaching the end of undergraduate medical education on the IFOM® Basic Science Examination (IFOM® BSE), the International Comparison Group (ICG) and custom comparison groups (if available). Caution should be used in interpreting an examinee's performance relative to the ICG or a custom comparison group due to differences in examinee preparation and motivation. More information about the ICG, custom comparison groups (if available), and how to interpret this document can be found in the Interpretation Guidelines for Medical Schools and Organizations.

If you wish to compare an examinee's performance with the performance of the ICG, locate the examinee's score in the column labeled Total Test Equated Percent Correct Score. Read across that row to the column labeled International Comparison Group. The number in this column is the examinee's percentile rank in the ICG, and it indicates the percentage of ICG participants scoring lower than that examinee.
