

SUBJECT EXAMINATION PROGRAM
INTERNATIONAL FOUNDATIONS OF MEDICINE®(IFOM®)
CLINICAL SCIENCE EXAMINATION
EXAMINEE PERFORMANCE REPORT

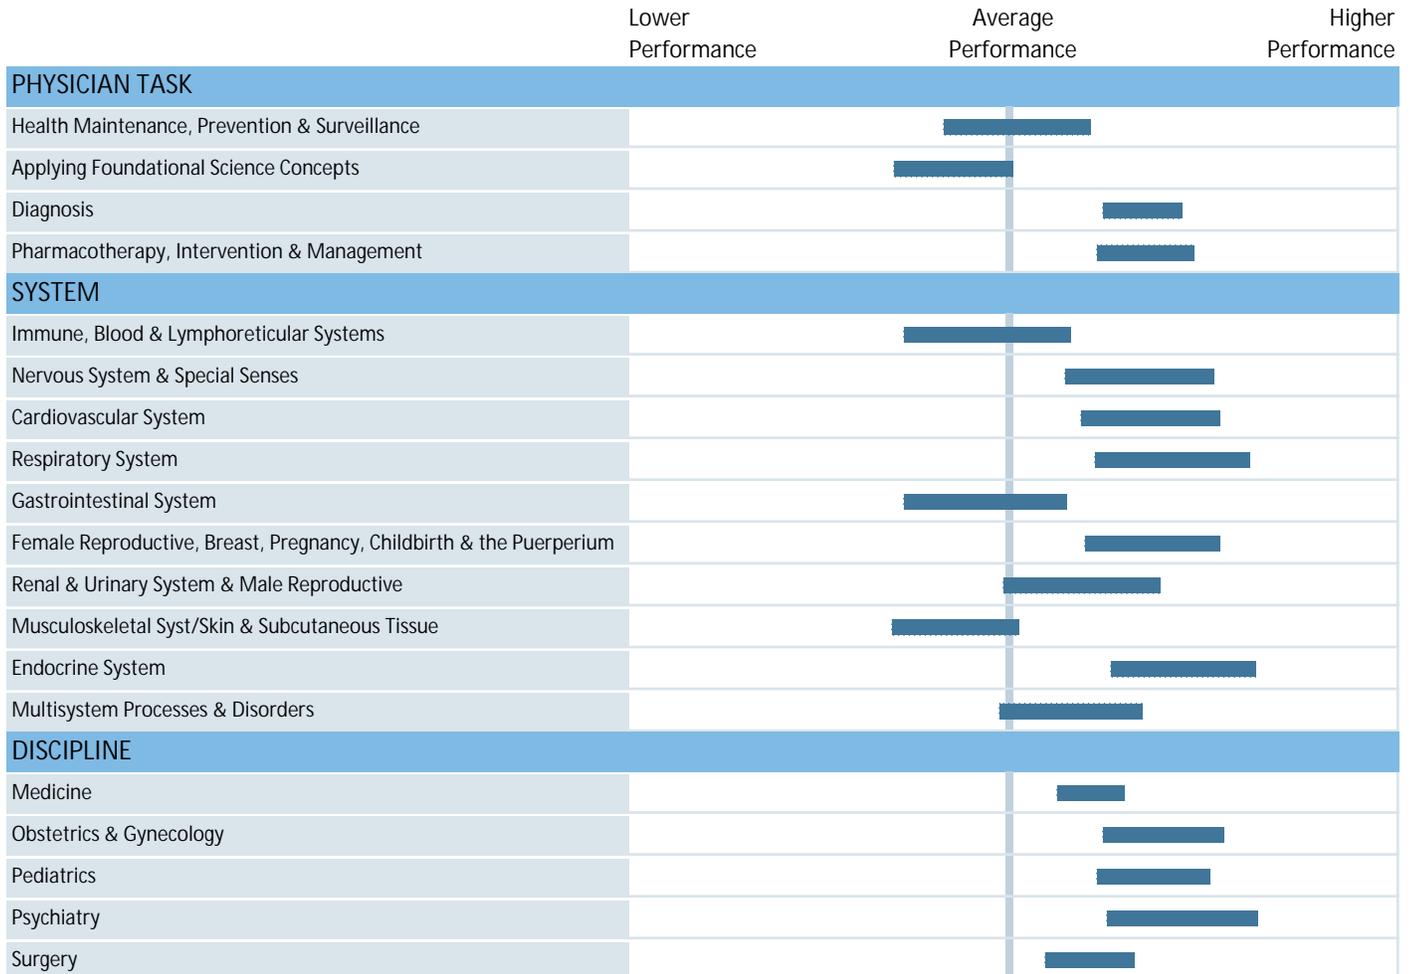

Name: Student A

ID: 00000

Total Test Equated Percent Correct Score: 66

Test Date: Month Day, Year

000000 - Generic Medical School

The above Performance Profile is provided to aid in self-assessment. The vertical line represents the average performance of the IFOM® CSE International Comparison Group (ICG) on the total test. Performance bands indicate areas of relative strength and weakness. Some bands are wider than others. The width of a performance band reflects the precision of measurement: narrower bands indicate greater precision. Striped shading of a band indicates that your performance band extends beyond the displayed portion of the scale.

Small differences in the location of bands should not be over-interpreted. If two bands overlap, performance in the associated areas should be interpreted as similar. Because the IFOM® CSE is designed to be integrative, many items contribute to more than one content area. As a consequence, caution should be used when interpreting differences in performance across content areas and in relation to the average performance of the IFOM® CSE ICG.

Additional score interpretation information, including information about the ICG, is provided in the IFOM® CSE Score Interpretation Guide (www.nbme.org/ifomcseYYYY).
