Total Equated Percent Correct Score: 53

Test Date: Month Day, Year

The following pages show the content description for each question on the exam, whether your answer was correct or incorrect, and a projected percentage of United States Medical Licensing Examination® (USMLE®) Step 1 examinees nationally who answered correctly.

Use this information to understand your performance on the questions covering specific topics. Questions are sorted alphabetically by content description, your answer (correct answers are shown first), and the percentage of examinees from the national comparison group who answered correctly (National % Correct). Higher percentages indicate easier questions.
