EXAMINEE PERFORMANCE REPORT

Examinee ID: 000000005
000000 - Sample Medical School

Name: Sample Examinee 5
Test Date: 07/07/2026

Interpreting Your Results

- Use the table below to review your performance. Your scores indicate the percentage of questions answered correctly for the total test and any other score categories.
- If multiple score categories are included, the results may be used to identify areas of strength and weakness. However, keep in mind that score categories other than Total Test are less reliable (based on fewer questions), and some categories may be more difficult than others. Small differences in scores should not be overinterpreted.
- If available, the historic percent correct for each category provides an approximate benchmark from when questions in that category were administered on NBME exams. Please note that historic percent correct values are intended for reference purposes only and should not be overinterpreted.
- **Tips for interpreting your results:** [Examinee Score Interpretation Guide](#)

Score Category	Number of Questions	Your Score	Historic % Correct
Total Test	200	83	76
Pathology	132	84	76
Histology/Cell Biology	74	71	77
Physiology	66	74	77
Pharmacology	47	58	72
Gross Anatomy	42	64	77
Microbiology	39	69	76
Immunology	35	77	76
Gastrointestinal	34	70	71
Cardiovascular	34	69	73
Embryology	32	66	68
Nutrition	32	62	75
Endocrine	31	72	75
Biochemistry	27	74	73
Renal	27	70	79
Respiratory	25	63	74
Social Sciences	22	60	78
Epidemiology	20	61	82
