

NBME CAS Practice Sizzle Transcript

At NBME, we understand the assessment needs of medical schools are always evolving, and as your needs change, our offerings are changing to meet them.

We are excited to introduce the Customized Assessment Services Practice Option. A flexible new way to use CAS designed to enhance teaching and learning.

Included in your subscription fee, the new practice option enables you to easily build and administer non-proctor tests throughout your course to assess student progress.

Create quizzes, and other lower stakes tests tailored to your curriculum from a dedicated practice content bank.

On-screen: [Over 2,500 foundational science items.]

Set up online administration windows so students can take the test anytime, anywhere, no proctors or room reservations needed.

Offer students immediate feedback on their performance.

Upon completing the exam, students are given their percent correct score and a review of questions answered incorrectly.

Hold exam, review sessions with a group to foster team discussion and learning, or with individual students to provide specialized instruction.

Explore the CAS practice option today.
