

Your Partner in Assessment Excellence

At NBME, we're guided by our mission: advancing assessment of health care professionals to achieve optimal care for all.

From tools for medical school educators, to support for examinees, we offer products and services for every stage of the medical education journey.

Subject examinations, customized assessment services, international foundations of medicine.

But we don't work alone. We collaborate with the Federation of State Medical Boards (FSMB) to create the USMLE, with the National Board for Health and Wellness Coaching (NBHWC) to create the health and wellness coach certifying examination, and with many more health professional organizations to enhance their assessment capabilities (AAMA, ICVA, and ACP).

While our committees of subject matter experts ensure these exams meet the highest standard.

Through our grants, funds, awards, and the work of our research team, we seek to empower medical educators all around the world.

NBME, your partner in assessment excellence.
